## **ARTICLE 4 USDOT ADMINISTRATIVE INFORMATION**

### **4.1 Office for Subaward and Contract Authorization.**

USDOT Office for Subaward and Contract Authorization: FHWA Office of Acquisition and Grants Management

#### **SUBAWARDS AND CONTRACTS APPROVAL**

Note: See 2 CFR § 200.331, Subrecipient and contractor determinations, for definitions of subrecipient (who is awarded a subaward) versus contractor (who is awarded a contract).

Note: Recipients with a procurement system deemed approved and accepted by the Government or by the Agreement Officer (the "AO") are exempt from the requirements of this clause. See 2 CFR 200.317 through 200.327. Note: This clause is only applicable to grants that do not include construction.

In accordance with 2 CFR 200.308(c)(6), unless described in the application and funded in the approved award, the Recipient must obtain prior written approval from the AO for the subaward, transfer, or contracting out of any work under this award above the Simplified Acquisition Threshold. This provision does not apply to the acquisition of supplies, material, equipment, or general support services. Approval will be issued through written notification from the AO or a formal amendment to the Agreement.

The following subawards and contracts are currently approved under the Agreement by the AO. This list does not include supplies, material, equipment, or general support services which are exempt from the pre-approval requirements of this clause.

### **5.2 Reimbursement Requests**

- (a) The Recipient may request reimbursement of costs incurred within the budget period of this agreement if those costs do not exceed the amount of funds obligated and are allowable under the applicable cost provisions of 2 C.F.R. Part 200, Subpart E. The Recipient shall not request reimbursement more frequently than monthly.

- (b) The Recipient shall use the DELPHI iSupplier System to submit requests for reimbursement to the payment office. When requesting reimbursement of costs incurred or credit for cost share incurred, the Recipient shall electronically submit supporting cost detail with the SF-270 (Request for Advance or Reimbursement) or SF-271 (Outlay Report and Request for Reimbursement for Construction Programs) to clearly document all costs incurred.
- (c) The Recipient's supporting cost detail shall include a detailed breakout of all costs incurred, including direct labor, indirect costs, other direct costs, travel, etc., and the Recipient shall identify the Federal share and the Recipient's share of costs. If the Recipient does not provide sufficient detail in a request for reimbursement, the Agreement Officer's Representative (the "AOR") may withhold processing that request until the Recipient provides sufficient detail.
- (d) The USDOT shall not reimburse costs unless the AOR reviews and approves the costs to ensure that progress on this agreement is sufficient to substantiate payment.
- (e) In the rare instance the Recipient is unable to receive electronic funds transfers (EFT), payment by EFT would impose a hardship on the Recipient because of their inability to manage an account at a financial institution, and/or the Recipient is unable to use the DELPHI iSupplier System to submit their requests for disbursement, the FHWA may waive the requirement that the Recipient use the DELPHI iSupplier System. The Recipient shall contact the Division Office Lead Point of Contact for instructions on and requirements related to pursuing a waiver.
- (f) The requirements set forth in these terms and conditions supersede previous financial invoicing requirements for Recipients.

	The Recipient has not taken actions related to the Project to improve racial equity and reduce barriers to opportunity and will not take those actions under this award.

**2. Supporting Narrative.**

An equity analysis will be included in the finished action plan. Our core population tracts are low income (65th percentile), linguistically isolated (92nd percentile), low median income (91st percentile), low rate of high school education and high unemployment (96th percentile). These communities are marginalized and thus to make efficacious safety improvements, further study needs to be done about how these communities are interacting with current traffic patterns to determine what improvements would bring about the best safety results. Especially when it comes to linguistic isolation, which suggests that these communities might need different types of signage and communications/.

This grant will allow the City to make restorative efforts to learn from the community how to make safety improvements in these areas.

**ATTACHMENT D**  
**CLIMATE CHANGE AND ENVIRONMENTAL JUSTICE IMPACTS**

**1. Consideration of Climate Change and Environmental Justice Impacts.**

X	The Recipient or a project partner used environmental justice tools, such as the EJScreen, to minimize adverse impacts of the Project on environmental justice communities. <i>(Identify the tool(s) in the supporting narrative below.)</i>
	The Project supports a modal shift in freight or passenger movement to reduce emissions or reduce induced travel demand. <i>(Describe that shift in the supporting narrative below.)</i>
	The Project utilizes demand management strategies to reduce congestion, induced travel demand, and greenhouse gas emissions. <i>(Describe those strategies in the supporting narrative below.)</i>

	The Project repairs existing dilapidated or idle infrastructure that is currently causing environmental harm. <i>(Describe that infrastructure in the supporting narrative below.)</i>
	The Project supports or incorporates the construction of energy- and location-efficient buildings. <i>(Describe how in the supporting narrative below.)</i>

X	The Project includes recycling of materials, use of materials known to reduce or reverse carbon emissions, or both. <i>(Describe the materials in the supporting narrative below.)</i>
	The Recipient has taken other actions to consider climate change and environmental justice impacts of the Project, as described in the supporting narrative below.
	The Recipient has not yet taken actions to consider climate change and environmental justice impacts of the Project but will take relevant actions described in the supporting narrative below.
	The Recipient has not taken actions to consider climate change and environmental justice impacts of the Project and will not take those actions under this award.

**2. Supporting Narrative.**

The EJ Screen has already been used to discover that several core Hollister census tracts are in 90-100<sup>th</sup> percentile in terms of traffic proximity. Many of its core census tracts are also in the 90-100<sup>th</sup> percentile for limited English speaking. These issues have been taken into consideration as something to explore in the action plan (e.g. considering multi-lingual signage). City already has a policy in place to prioritize the procurement of recycled materials and this will guide any construction activities that take place during the implementation phase. The City will work with the action plan consultant to identify other environmental and sustainability factors to include in the bidding process when we select vendors to implement the action plan items.

**ATTACHMENT E

**2. Supporting Narrative.**

The City’s Ordinance No. 1241 describes the city’s procurement process which factors in many considerations to obtain the best value. These criteria include labor compliance, which is the involves the ability to comply with contract and statutory requirements for the payment of wages and qualifications of the workforce. There also a clause giving preference to local vendors, to improve local economic development. These procedures will be most relevant when selecting vendors to implement the changes we identify in the action plan. We will work with consultants to identify other pertinent qualifications related to good labor practices that we can include in the bid process.
