FROM: Alexander K Salter, PE

SUBJECT: Kramer Commons – Hollister, CA
Updated Tentative Map Review

PROJECT: 21-0552

We have reviewed the updated Tentative Map dated 15 August 2025 for the Kramer Commons residential project.

The updated map will conceptually meet City's acoustical requirements as detailed in our 3 August 2022 environmental noise study. As stated in the report, further analysis will need to be performed once the architectural design is developed to confirm specific mitigation.

Please call with any questions.
